STATE REPRESENTATIVE'S REPORT

George B. Roberts, Jr.

House Majority Leader

As the 1973 Session of the New Hampshire General Court gets underway, it will prove to be a busy schedule with many of the recommended bills being controversial. As of this date, it is anticipated that nearly 2000 bills and resolutions will be introduced and acted upon.

I start this session again being in the position of House Majority Leader and Chairman of the House Rules Committee as well as membership on the Committee of Interstate Cooperation. These assignments and many administrative duties connected with the House dictate that at least three days a week are spent in Concord from 8:00 a.m. to 6:00 p.m. Other special interim committee assignments also demand time of the two remaining days of the week. As I was re-elected Chairman of the Belknap County Delegation to preside over matters concerning county government, the next two years will perhaps be the busiest since I have been your state representative.

Belknap District 4 now includes the towns of Alton, Barnstead, and Gilmanton and requests for special legislation and legislation specifically dealing with my district have multiplied.

I have introduced the following legislation because of a local request—House Bill 4, an act to provide workmens compensation coverage for all voluntary or auxiliary members of an ambulance service. This bill was introduced to cover the members of the Alton Volunteer Service who are not members of the Alton Fire Department for the purpose of providing workmens compensation if injured or disabled during the performance of their work. House Bill 4 passed the House and I anticipated passage to be effective by July 1st at least.

I have a request as of this date to introduce a bill to limit operators of motorboats on Sunset Lake or Places Pond. The bill as requested would limit operation of motorboats on Sunset Lake in the town of Alton to five horsepower motors and would prohibit excessive speeds. A petition of residents and property owners on Sunset Lake was sent to me and there seems to be considerable support for the passage of this legislation. I will welcome any suggestions or opinions concerning this legislation.

Because Alton is a new town in my district I am making added attempts to keep town officials advised as to such legislation and I will upon completion of the Legislature review with town officials changes in state laws which would affect the administration of town government. As always, I will try to continue to be responsive to your comments and suggestions regarding state legislation and look forward to your opinions and suggestions.

Sincerely,

George B. Roberts, Jr.

REPORT OF BUILDING INSPECTOR

June 1, 1972 - December 31, 1972

Permits issued	112	
Inspection made	207	
Permit fees collected		\$708.50
Value of Construction	\$922,239.00	
Stop Notices issued	5	
Miles traveled by automobile	1,380	
Mile traveled by boat	170	
Hours on job—approximately	270	

There was, to the best of my knowledge well over one million dollars worth of construction in the Town of Alton in the past year. At some time in the near future, the job of building inspector is going to have to become a full time job.

I have enjoyed my past term as building inspector and have not run into very many problems. I have found almost all of the people cooperative and look forward to the same in 1973.

Respectfully submitted,

Charles E. LaPointe
Building Inspector

REPORT OF THE ALTON CONSERVATION COMMISSION 1972

Your Conservation Commission met at least once each month during the past year to consider many matters relating to the quality of the Town's environment.

Like so many New England communities, Alton is in the process of being "developed." Your Commission is convinced that if development is not sensibly controlled the Town can suffer permanent and irreversible damage and soon become a less desirable place to live.

Lake Winnepesaukee is without question the Town's one most valuable natural asset. Increased pollution, particularly from in-ground sewage seeping into the lake and its tributaries, can quickly lessen and even ultimately destroy its value. The control of pollution has been the most frequently discussed subject at the Commission's meetings since it met for the first time in October, 1969. The problem is more serious now than it was then, and it will become increasingly serious as the Town is further "developed" and more and more people come here to live.

Two major matters that came before the Commission during the past year were:

1. The algae problem in Marsh Pond, which reached nuisance proportions last summer. At the Commission's meeting of January 22, 1973, the Selectmen agreed to have test borings made before the present Town Meetings to try to determine the source of the nutrients that cause the algae growth.
2. Protection of the Merrymeeting River and its marsh. The Commission has applied to the Ford Foundation for a grant to develop a program for preserving the river and its marsh as a natural area for recreation, wildlife habitat and scenic beauty, and to protect the quality of its water.

The Commission has accepted the generous offer from Tree Growers, Inc. of a public easement on Beaver Brook in East Alton extending 1500 feet upstream of the Hayes Road bridge. We hope other landowners will consider this means of setting aside wild land for the benefit and use of all.

In the spring the Commission purchased 500 autumn olive seedlings raised at the state nursery and in cooperation with the Alton Garden Club distributed them without charge to those who wished to plant them as a source of wild bird food. To date the Commission has provided nearly 2,000 of these shrubs for planting throughout the Town.

During the past year members of the Commission have attended a number of meetings and hearings on matters relating to the environment, and have expressed their views on such matters. All travel by members has been at their own expense.

With the \$2,000 voted by the townspeople at the last Town Meeting, the Conservation Fund now Totals \$7,435.32. No major disbursements were made from the fund last year.

During the year the Selectmen accepted the resignations of Gladys Varney, secretary-treasurer, and John D. Riordan, chairman since December 1970. Miss Varney and Mr. Riordan were the Commission's hardest working, most diligent members and the Town is indebted to them for their guidance and leadership.

Respectfully submitted,

COMMISSION**

REPORT of the FOREST FIRE WARDEN and DISTRICT CHIEF

In New Hampshire, forest fire control is a cooperative State—town program. The Town Forest Fire Warden, appointed by the Director, Division of Resources Development upon recommendation of the Selectmen and the State's District Forest Fire Chief is responsible for fire suppression and other related duties. The State shares equally with the town in the cost of most forest fires, except illegal and careless fires, which are charged to the responsible party. The State further provides fire detection services, prevention programs, fire training for town wardens and crews, and back up equipment for fire suppression.

By authority of the State, the Town Forest Fire Warden controls all outside burning in his town except backyard cooking fires. Any person wishing to kindle a fire when the ground is not covered with snow must obtain a fire permit, free of cost, from the Town Forest Fire Warden. No permits will be issued for fires between 9:00 A.M. and 5:00 P.M. unless it is raining, except for commercial purposes.

Please be careful when using fire, remember it can be an extremely useful tool when under control but once allowed to run wild it can become a disastrous and devastating force. Only you can prevent a forest fire.

Number of fires reported and acres burned—1972 season:

STATE —	410 fires	361 Acres Burned
DISTRICT —	102 fires	55 1/2 Acres Burned
TOWN —	4 fires	18 Acres Burned & 2 Spot Fires

ALTON - ALTON BAY CHAMBER OF COMMERCE
Alton, New Hampshire
INFORMATION BOOTH

At a recent meeting of the Chamber of Commerce it was voted to change the name of the organization to the greater Alton-Alton Bay Chamber of Commerce. A majority of the members present were of the opinion the word "Greater" was more inclusive considering the fact, in addition to Alton and Alton Bay, other sections of the town are known as West Alton East Alton and south Alton.

The change is of course subject to approval by the Secretary of the State of New Hampshire.

The various committees of the chamber are working very diligently in a number of areas.

The Activities Committee members spent two days in the Town Hall repairing Christmas street lights. A tree was erected in the center of Town and a contest conducted among the students to make decorations for it. Merchants allowed students to decorate their store windows.

Cash awards were given for the tree decorations and a plaque was presented to the one who, in the opinion of the judges, had the most attractive window. These contests were initiated by the Youth Activities Committee.

A lighted skating ring on the East side of the Bay has become a reality through the efforts of the Activities Committee.

The Advertising Committee is in the process of preparing a new brochure. It will be approximately the same size as the last one, but in booklet form. Many business people have already been contacted and most have purchased ads.

The committee is hopeful of contacting every business in the area. Needless to say, this is a tremendous task. Present plans are to have all copy ready for the printer by April 1.

The Membership Committee has been actively engaged in recruiting new members. Many who are not in business, but have a real interest in the Town, are supporting the Chamber in its efforts by becoming Associate Members.

The Information Booth has been in operation for 17 years. Each summer a great number of people use its facilities. Townspeople, as well as vacationers, seem to find the abundance of available material helpful.

The Chamber of Commerce would be most grateful for your support and cooperation. So much more can be accomplished through cooperative, effort and teamwork.

Respectfully submitted,
Gladys E. Howe, Secretary

GILMAN LIBRARY REPORT

The trustees of the Gilman Library are pleased to announce that the exterior of the library has been painted. New chairs have been placed in the children's section. Upholstered benches are now in the adult as well as the children's section. Over four hundred books have been purchased.

With the assistance of the State Library Consultant, Cataloging of the non-fictions books has begun. Both librarians and the trustees are working on this long term project.

Plans for next year include painting the entire inside of the building, and additional furniture. The library will be open an additional hour each week. During the school year, Wednesday hours will be 1 to 5 P. M. and 7 to 8 P. M. In the summer the hours on Wednesday will be 2 to 5 P. M. and 7 to 9 P. M. This should enable school children to use the library before going home. The summer hours will give summer people more time to use the library.

We are hopeful that with the added hour, the new furniture and continual purchases of new books, more townspeople will enjoy their library.

THE HAROLD GILMAN HISTORICAL MUSEUM

The Alton Town Report for 1971 contained a brief outline of how the Harold Gilman Historical Museum was created. The Committee has been endeavoring to accede to the wishes of the Special Town Meeting of August 1967. At the time the Town Report went to press, a request for a building permit had been made. Because of the new building requirements recently enacted, and with a variance requested, a public hearing was required. Delays in setting the time for the public hearing, and with the withdrawal of the requested variance at that hearing, made a building permit available. All of this invalidated the write-up in the 1971 report—"Construction will begin in 1972."

However, the above delay made it so late in 1972 that the Committee thought it best not to begin construction. Some other possible locations were brought to the attention of the Committee and all were thought to be desirable for the location of a Museum building. Again these would undoubtedly entailed going before the Planning or Variance Boards for approval, but before any site got to that stage, other factors including cost destroyed their potentialities.

WEST ALTON COMMUNITY CENTER

Progress at the Community Center this year was limited due to lack of water. Fifteen Whist parties were held and we wish to thank the many friends and community workers for their generous donations for prizes and refreshments, and of their time involved in this enterprise. Four whist parties were cancelled due to storms.

REPORT OF ALTON WATER WORKS

The Alton Water Works has completed another successful year.

Improvements have been made to the summer lines on the Camp-ground according to the agreement when these lines were taken over.

Your Commissioners are planning on putting the pumps and reservoir on automatic operation. Also, we are looking into the possibility of increasing the storage capacity of our present reservoir for a better supply of water in case of a serious fire.
